

Webinar

Paediatric cancers and data sharing

September 23rd, 2024

Introduction on the Working Group 1 5 min

Lynne Penberthy (National Cancer Institute - NCI)

Dr. Lynne Penberthy is the Associate Director for the Surveillance Research Program (SRP). She holds an MD from the University of Michigan and an MPH in epidemiology from Johns Hopkins. Dr. Penberthy has extensive experience in cancer surveillance, clinical trials assessment, and developing informatics tools.

Focus on the work of WS 3 on Data Resource Mapping 15 min

Serban Negoita (National Cancer Institute - NCI)

Serban Negoita is the Chief of the Data Quality, Analysis, and Interpretation Branch (DQAIB) at the Surveillance Research Program. With an MD from the University of Medicine and Pharmacy in Bucharest and a DrPH from the State University of New York, he has over 25 years of experience in cancer surveillance and public health research.

Pilot project updates 30 min

Austin Fitts (National Cancer Institute - NCI)

Austin Fitts, PharmD, has joined the Surveillance Research Program (SRP) in the Surveillance Informatics Branch (SIB) as a Cancer Research Training Award postdoctoral fellow. He supports Dr. Elizabeth Hsu on projects related to the National Childhood Cancer Registry (NCCR). His primary interests are pediatric cancer, machine learning, and pharmacogenomics.

Adrian Gee (StatCan)

Adrian Gee has been with Statistics Canada for seven years and joined the Cancer team as an Analyst in Spring 2023, prior to which, he worked on projects related to MAID and Excess Mortality in the Vital Statistics team. Adrian completed his MSc(Med) at Memorial University of Newfoundland with a focus on spatial and temporal epidemiology. His interests include data linkages & dissemination, public health discourse, and health inequities.

Tamara Miller (Emory University School of Medicine)

Tamara Miller, MD, MSCE is an associate professor in the Department of Pediatrics at Emory University School of Medicine. Dr. Miller treats pediatric hematology/oncology patients at the Aflac Cancer and Blood Disorders Center of Children's Healthcare of Atlanta. She received her MD from the Yale University School of Medicine and completed a Masters of Science in Clinical Epidemiology at the University of Pennsylvania. Her research is focused on leveraging electronic health record data to describe cancer treatments, toxicities, and outcomes and performing clinical epidemiology research in supportive care that will improve clinical care of children with cancer.

Conclusion and Next steps 10 min
